

MODEL SQB

SQUARE INLINE BELT DRIVE CENTRIFUGAL DUCT FAN

APPLICATION

Model SQB square inline duct mounted fans are available in sizes 7 through 24, moving from 100 to over 9,300 CFM, with static pressure capabilities to 1-1/2". SQB units are the perfect selection for clean air applications where space is a leading consideration. The compact housing with removable access doors and side discharge capability can be mounted in any orientation. AMCA licensed performance and UL listing assure that you've made a reliable selection.

CONSTRUCTION

Housing

- Heavy-gauge galvanized steel for extra strength.
- Integral inlet and outlet duct collars.
- Universal mounting - horizontal, vertical or any angle.
- Motor and drives out of the air stream.
- Easy access for service with removable side panels and drive and bearing covers without disconnecting duct.

Centrifugal Wheel

- All aluminum backward inclined wheel.
- Nonoverloading for safe operation in ducted systems.
- Statically and dynamically balanced for smooth operation.

Bearings

- Bearings designed for minimum 200,000 hour life.
- Bearings are double sealed and prelubricated with relube fittings.

Drives

- Sized for minimum 150% of drive horse power.
- Machined cast iron adjustable motor pulleys.
- Motor mount plate with integral belt tensioning device.
- Nonstatic v-belts.

Motors

- Single speed open drip-proof are standard.
- All motors are rated for continuous duty.
- Standard motors are permanently sealed ball bearing type.
- 182T and larger motors shipped unmounted for field installation.

AMCA SEAL

JencoFan, Div. of Soler & Palau Ventilation Group, certifies that the Models SQB shown herein are licensed to bear the AMCA Seal. The ratings shown are based on test and procedures performed in accordance with AMCA Publication 211 and AMCA Publication 311 and comply with the requirement of the AMCA Certified Ratings Program.

UL-705 LISTED POWER VENTILATOR

Performance certified is for installation Type B-free inlet, ducted outlet.
 Power ratings (BHP) do not include transmission losses.
 Performance ratings do not include the effects of appurtenances (accessories).

The sound ratings shown are loudness values in fan sones at 5 feet (1.5m) in a hemispherical free field calculated per AMCA Standard 301. Installation Type A: free inlet hemispherical sone levels.

Performance at higher RPM for each horse power is standard for that unit. Reduced performance can be obtained down to the minimum shown at the lower RPM for each unit, by resetting the adjustable motor sheave.

*Tri-voltage (115-208-230) is standard on 3/4 through 1 1/2 Hp Single phase motors. Tri-voltage is available for the 1/2 Hp motors. Inquire for price and delivery.
