

MODELS RCXII/RCXII-SF

RELIEF/INTAKE GRAVITY VENTILATORS

RCXII (sizes 6-20)

RCXII (sizes 24-36)

RCXII-SF

MODEL FEATURES

- Exhaust or Supply air up to 10,400 CFM in static pressure applications up to .35" w.g.
- All heavy-gauge aluminum construction
- Aluminum Birdscreen is standard
- Curb mounted or Self-flashing models

MODEL OVERVIEW

Model RCXII and RCXII-SF relief or intake ventilators feature low contour spun aluminum hoods for an attractive appearance. They are designed to exhaust or supply air from or to an enclosed area without the need for a power operated fan. Available in two styles, these fans range in sizes from 6-36. The RCXII (curb) has a curb cap found on most roof ventilators and must be mounted on a roof curb (sold separately). Model RCXII-SF (self-flashing) has an extra wide, flat base that installed under roof shingles and does not require a roof curb. Both styles come standard with a galvanized bird screen

Model RCXII and RCXII-SF rely on a difference in static pressure inside and outside the area to create an airflow through the ventilator from the area of higher pressure to the area of lower pressure. If the enclosed area is under a negative pressure, air will flow into the enclosed area (intake). If the enclosed area has a positive pressure, air will flow from it to the outside (relief).

These units can also operate as gravity ventilators, allowing air to flow from an enclosed area using the "Stack Effect." The amount of air flow will depend on the temperature difference inside and outside the area and the height difference between the ventilator and the outside air intake to the area.

Models RCXII and RCXII-SF are available in our Quickship program. Sizes 6-36 are available for next day or 10-day shipping from stock.

Industry best 5 year fan housing warranty

CONSTRUCTION/SPECIFICATION CHECKLIST

- Five year warranty.
- Low contour spun aluminum hood for attractive appearance.
- All heavy-gauge aluminum construction.
- Weather resistance design for long life and maintenance free operation.
- Galvanized birdscreen is standard.
- Available in 13 sizes for a wide range of performance capabilities.
- RCXII has one-piece curb cap with spun inlet for maximum efficiency.
- RCXII-SF is self flashing.
- Shipped completely assembled for ease in installation.

OPTIONS/ACCESSORIES

Roof Curb: Prefabricated heavy-gauge galvanized steel, welded construction, 12" high (other heights are also available) with 1-1/2" wood nailer. Assures perfect fit of to roof opening. Options include burglar bars, single or double pitch construction and hinged curbs for easy duct access.

Motor Operated Damper: Motor operated aluminum damper for positive closure against backdraft.

Automatic Damper: Automatic aluminum damper for ease in installation and effective backdraft protection.

Special Coatings: for protective and decorative purposes. Available coatings include: Synthetic Resin, Epoxy, and Heresite (air-dried phenolic). Contact your representative or the factory for more information on available coatings and colors.

Insect/Weather Screen: Helps prevent insects, snow, airborne mist or water droplets from entering on supply applications exceeding 650 FPM velocity.
